MCKESSON

GPO Performance Tracker – Quick Reference Guide

Track savings, tier progress and top opportunities by customer and quarter

For both ONMARK and UNITY GPO

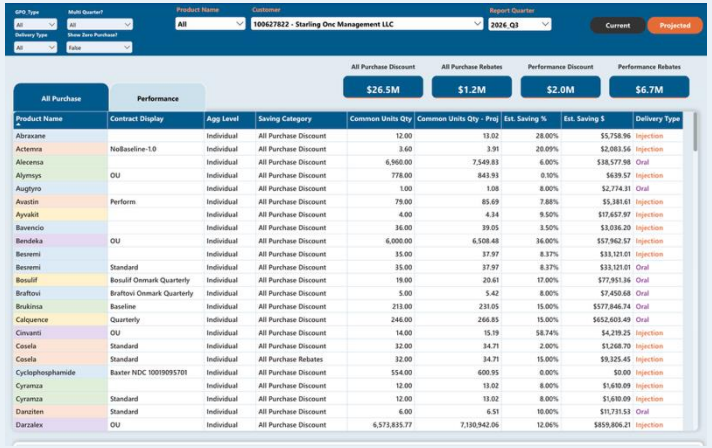

Product Name	Contract Display	Agg Level	Saving Category	Common Units Qty	Common Units Qty - Proj	Est. Saving %	Est. Saving $	Delivery Type
Abraxane		Individual	All Purchase Discount	12.00	13.02	28.00%	$5,758.96	Injection
Actemra	NoBaseline-1.0	Individual	All Purchase Discount	3.60	3.91	20.09%	$2,083.56	Injection
Alecensa		Individual	All Purchase Discount	6,960.00	7,549.83	6.00%	$38,577.98	Oral
Alymsys	OU	Individual	All Purchase Discount	778.00	843.93	0.10%	$639.57	Injection
Augtyro		Individual	All Purchase Discount	1.00	1.08	8.00%	$2,774.31	Oral
Avastin	Perform	Individual	All Purchase Discount	79.00	85.69	7.88%	$5,381.61	Injection
Ayvakit		Individual	All Purchase Discount	4.00	4.34	9.50%	$17,657.97	Injection
Bavencio		Individual	All Purchase Discount	36.00	39.05	3.50%	$3,036.20	Injection
Bendeka	OU	Individual	All Purchase Discount	6,000.00	6,508.48	36.00%	$57,962.57	Injection
Besremi		Individual	All Purchase Discount	35.00	37.97	8.37%	$33,121.01	Injection
Besremi	Standard	Individual	All Purchase Discount	35.00	37.97	8.37%	$33,121.01	Oral
Bosulif	Bosulif Onmark Quarterly	Individual	All Purchase Discount	19.00	20.61	17.00%	$77,951.36	Oral
Braftovi	Braftovi Onmark Quarterly	Individual	All Purchase Discount	5.00	5.42	8.00%	$7,450.68	Oral
Brukinsa	Baseline	Individual	All Purchase Discount	213.00	231.05	15.00%	$577,846.74	Oral
Calquence	Quarterly	Individual	All Purchase Discount	246.00	266.85	15.00%	$652,603.49	Oral
Cinvanti	OU	Individual	All Purchase Discount	14.00	15.19	58.74%	$4,219.25	Injection
Cosela	Standard	Individual	All Purchase Discount	32.00	34.71	2.00%	$1,268.70	Injection
Cosela	Standard	Individual	All Purchase Rebates	32.00	34.71	15.00%	$9,325.45	Injection
Cyclophosphamide	Baxter NDC 10019095701	Individual	All Purchase Discount	554.00	600.95	0.00%	$0.00	Injection
Cyramza		Individual	All Purchase Discount	12.00	13.02	8.00%	$1,610.09	Injection
Cyramza	Standard	Individual	All Purchase Discount	12.00	13.02	8.00%	$1,610.09	Injection
Danziten	Standard	Individual	All Purchase Discount	6.00	6.51	10.00%	$11,731.53	Oral
Darzalex	OU	Individual	All Purchase Discount	6,573,835.77	7,130,942.06	12.06%	$859,806.21	Injection

McKesson Proprietary and Confidential

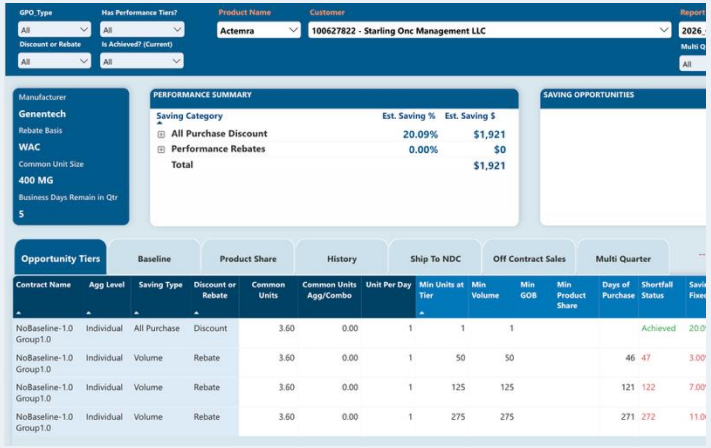

GPO Performance Tracker – at a Glance

Three views work together: start with the Summary, drill into a product, then prioritize what to pursue.

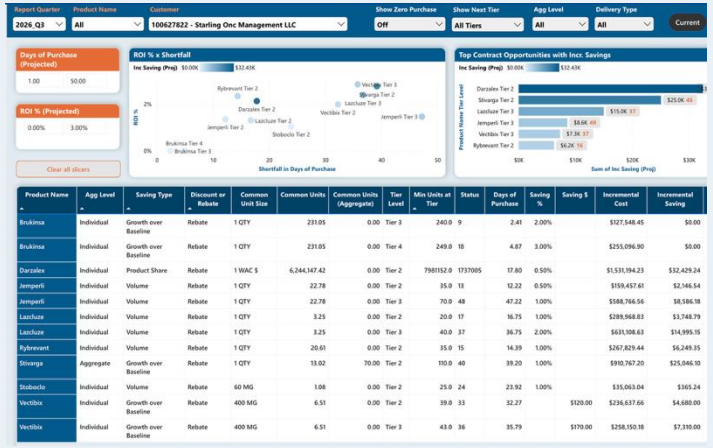

1 Summary View

Savings by product and category for the selected customer and quarter, plus a quarterly trend.

2 Product Detail View

Drill into one product: contract terms, tier progress, baseline, share, history and invoice detail.

3 Top Opportunities View

Ranks tiers by ROI and shortfall to show where extra purchases pay off most.

McKesson Proprietary and Confidential

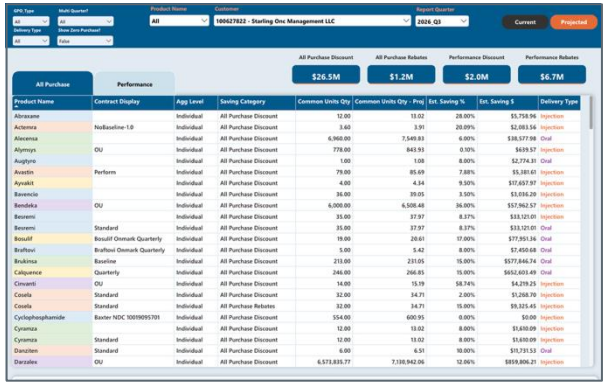

Index

1 **Summary View (All Purchase & Performance)**

2 Product Detail View

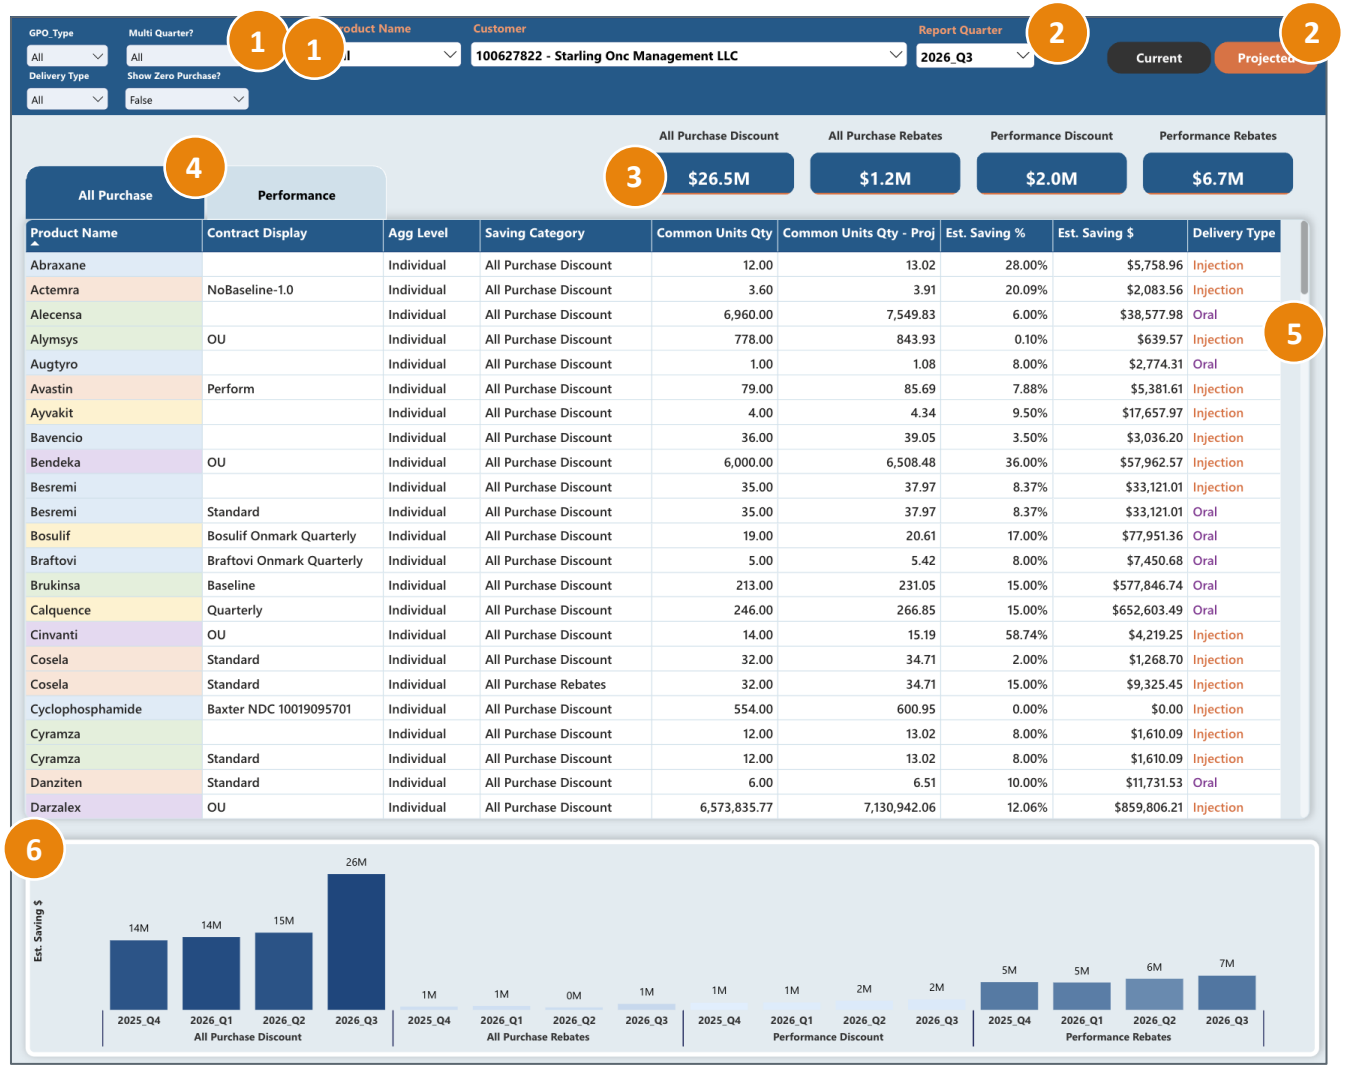

3 Top Opportunities View

4 Key Terms

McKesson Proprietary and Confidential
MCKESSON

Summary View – 'All Purchase' Tab

1 Filters

Narrow by GPO Type, Contract Term, Delivery Type, Product and Customer. Include zero-purchase products set to No hides products with no purchases.

2 Report Quarter & Current / Projected

Pick the quarter. Current uses purchases to date; Projected estimates quarter end. The orange button is the active view.

3 Savings tiles

Totals for the selected customer and quarter: All Purchase Discount and Rebates, Performance Discount and Rebates.

4 All Purchase / Performance tabs

Switch the table between savings on every purchase and savings tied to performance tiers.

5 Product table

One row per product, contract and saving category. Click a header to sort; scroll for more products.

6 Trend chart

Estimated saving $ by quarter for each of the four categories, ending in the report quarter.

McKesson Proprietary and Confidential

Summary View – Reading the Table

Product Name	Contract Display	Agg Level	Saving Category	Common Units Qty	Common Units Qty - Proj	Est. Saving %	Est. Saving $	Delivery Type
Abraxane		Individual	All Purchase Discount	12.00	13.02	28.00%	$5,758.96	Injection
Actemra	NoBaseline-1.0	Individual	All Purchase Discount	3.60	3.91	20.09%	$2,083.56	Injection
Alecensa		Individual	All Purchase Discount	6,960.00	7,549.83	6.00%	$38,577.98	Oral
Alymsys	OU	Individual	All Purchase Discount	778.00	843.93	0.10%	$639.57	Injection
Augtyro		Individual	All Purchase Discount	1.00	1.08	8.00%	$2,774.31	Oral
Avastin	Perform	Individual	All Purchase Discount	79.00	85.69	7.88%	$5,381.61	Injection
Ayvakit		Individual	All Purchase Discount	4.00	4.34	9.50%	$17,657.97	Injection

Column	What it tells you
Product Name	Drug product; click the header to sort
Contract Display	Contract or program the terms come from
Agg Level	Individual (this account) or Aggregate (pooled)
Saving Category	All Purchase or Performance; Discount or Rebate
Common Units Qty	Purchases to date, in common units
Common Units Qty - Proj	Projected quarter-end purchases
Est. Saving %	Estimated saving rate for the row
Est. Saving $	Estimated saving in dollars
Delivery Type	Injection or Oral

Current

Savings based on purchases made so far in the quarter.

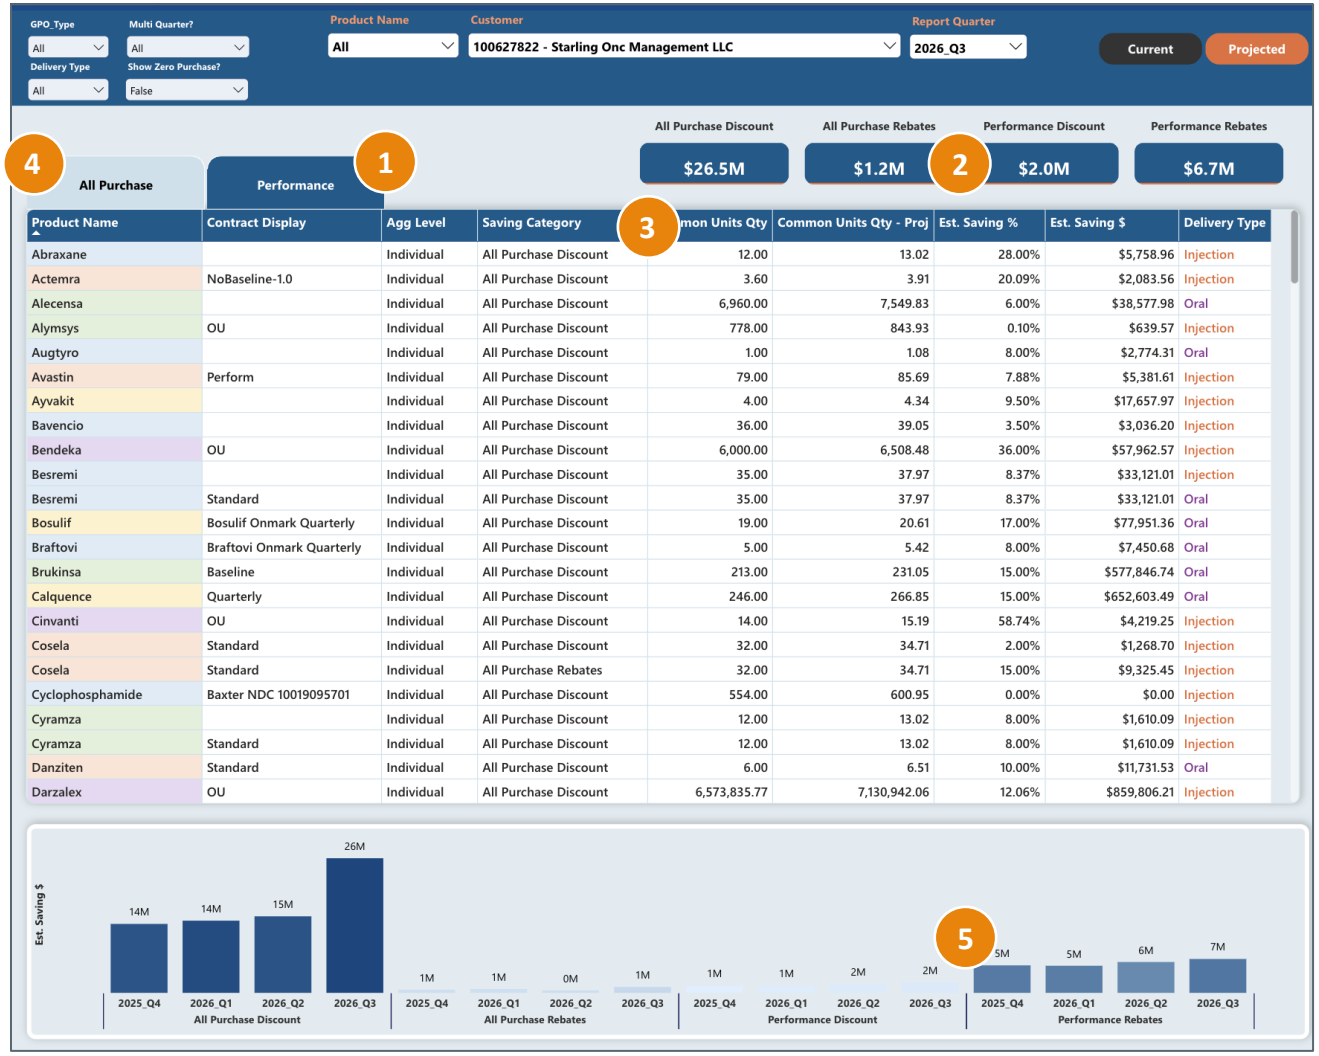

Projected

Estimated savings at quarter end, using projected units.

Tip: Compare Common Units Qty with Common Units Qty - Proj to see how far the projection runs ahead of purchases to date.

McKesson Proprietary and Confidential

Summary View – 'Performance' Tab

1 Performance tab
Select to focus on savings earned through performance tiers rather than on every purchase.

2 Performance tiles
Performance Discount and Performance Rebates for the selected customer and quarter.

3 What 'Performance' means
Savings earned by reaching tier targets such as volume, growth over baseline or product share. Performance discounts apply to a future quarter.

4 Versus All Purchase
All Purchase savings apply to every purchase, such as a flat 2% rebate. No target needed.

5 Performance trend
The right-hand bars show Performance Discount and Rebates for recent quarters.

Product Detail View – Page Layout

Tip: Set Product, Customer, Report Quarter and Current / Projected first; the tabs below work from those selections.

1 Filters
GPO Type, Rebate Structure, Discount or Rebate, Tier Achievement Status, Contract Term

2 Product, Customer, Quarter
Choose what to view; the orange button shows Current or Projected

3 Product info
Manufacturer, rebate basis (WAC or Contract), unit size, business days left

4 Performance Summary
Estimated saving % and $ by category; click + to expand

5 Saving Opportunities
Plain-language contract terms for the product

6 Detail tabs
Seven tabs of supporting detail, covered on the next pages

McKesson Proprietary and Confidential

Product Detail – 'Opportunity Tiers' Tab

Contract Name	Agg Level	Saving Type	Discount or Rebate	Common Units	Common Units Agg/Combo	Unit Per Day	Min Units at Tier	Min Volume	Min GOB	Min Product Share	Days of Purchase	Shortfall Status	Saving % / Fixed $	Incremental Cost	Incremental Saving	ROI %
NoBaseline-1.0 Group1.0	Individual	All Purchase	Discount	3.60	0.00	1	1	1				Achieved	20.09%			
NoBaseline-1.0 Group1.0	Individual	Volume	Rebate	3.60	0.00	1	50	50			46	47	3.00%	$99,747	$3,984	3.99%
NoBaseline-1.0 Group1.0	Individual	Volume	Rebate	3.60	0.00	1	125	125			121	122	7.00%	$258,917	$23,238	8.98%
NoBaseline-1.0 Group1.0	Individual	Volume	Rebate	3.60	0.00	1	275	275			271	272	11.00%	$577,257	$80,338	13.92%

Column	What it tells you
Saving Type	What earns the saving: All Purchase, Volume, Growth, Share
Min Units / GOB / Share	Threshold needed to reach the tier
Days of Purchase	Days of buying at Unit Per Day needed to close the gap
Shortfall Status	Achieved (green) or units still needed (red)
Saving % / Fixed $	Saving earned at that tier
Incremental Cost / Saving	Extra spend to reach the tier vs. extra saving gained
ROI %	Incremental Saving ÷ Incremental Cost

Example: Actemra

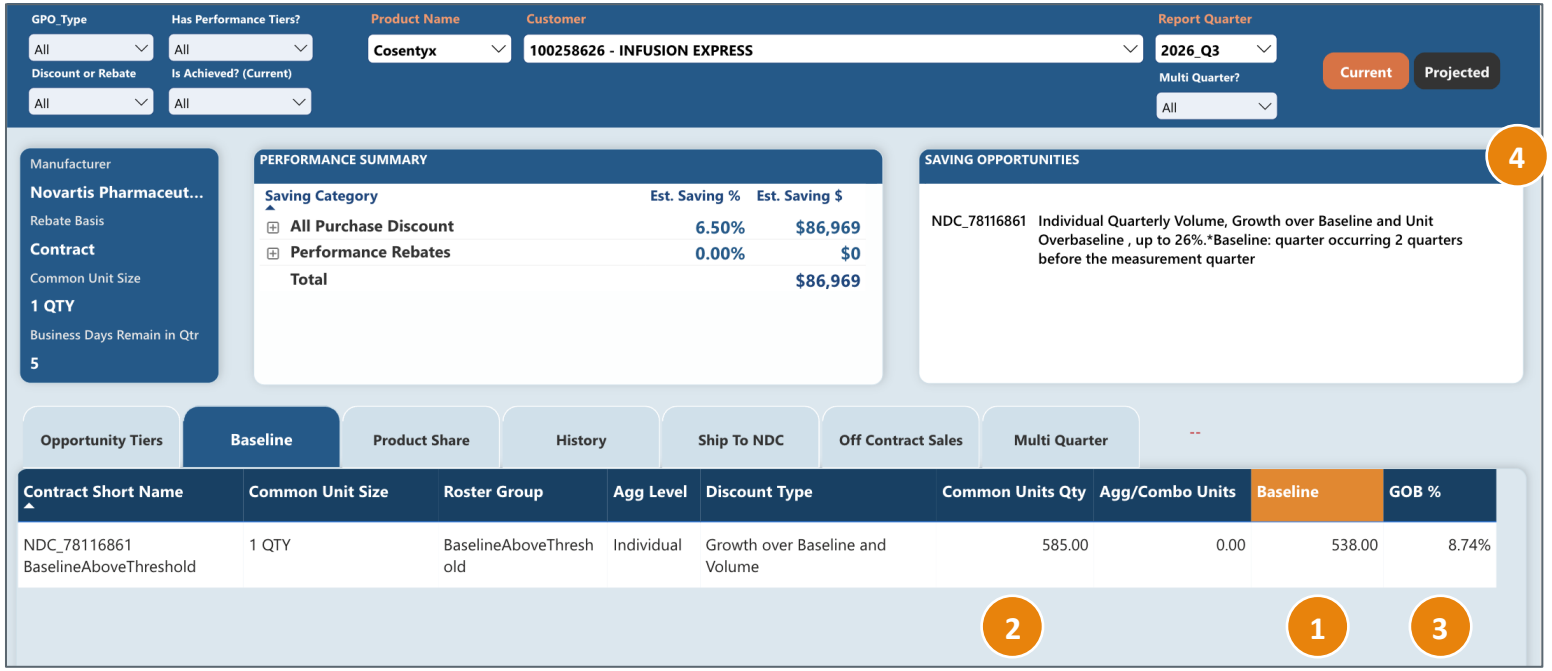

All Purchase Discount of 20.09% is already Achieved.

The 50-unit Volume rebate tier (3.00%) is 47 units short: about 46 days of purchase at 1 unit per day.

With 5 business days left in the quarter, this tier is unlikely to be reached.

McKesson Proprietary and Confidential

Product Detail – 'Baseline' Tab

Example: Cosentyx

585 common units this quarter against a baseline of 538 gives growth over baseline (GOB) of 8.74%.

Baseline here is the quarter occurring 2 quarters before the measurement quarter.

1 Baseline
Reference volume that growth is measured against (538 in this example)

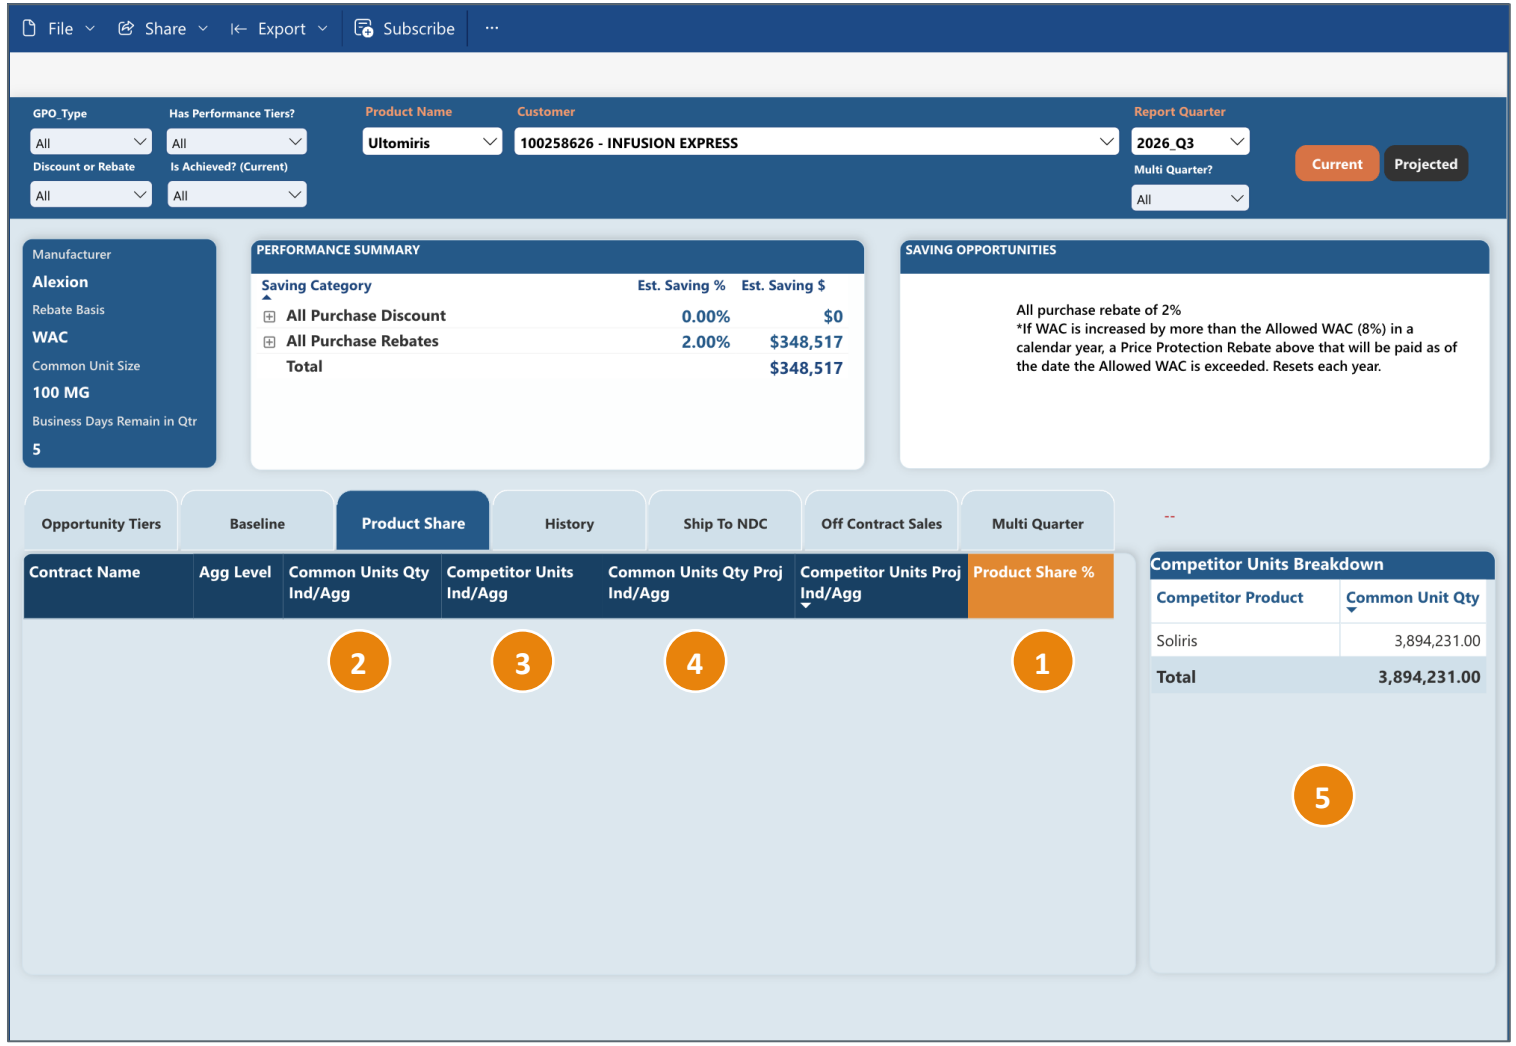

2 Common Units Qty
Units purchased this quarter (585). Agg/Combo Units shows pooled volume when it applies.

3 GOB %
Growth over Baseline: how far this quarter sits above the baseline (8.74%)

4 Saving Opportunities
Explains how the baseline is set, here the quarter 2 quarters before the measurement quarter.

McKesson Proprietary and Confidential

Product Detail – 'Product Share' Tab

1 Product Share %
Share of units against competitor products

2 Common Units Qty Ind/Agg
Your units for the product, individual or aggregate

3 Competitor Units
Units of competing products counted

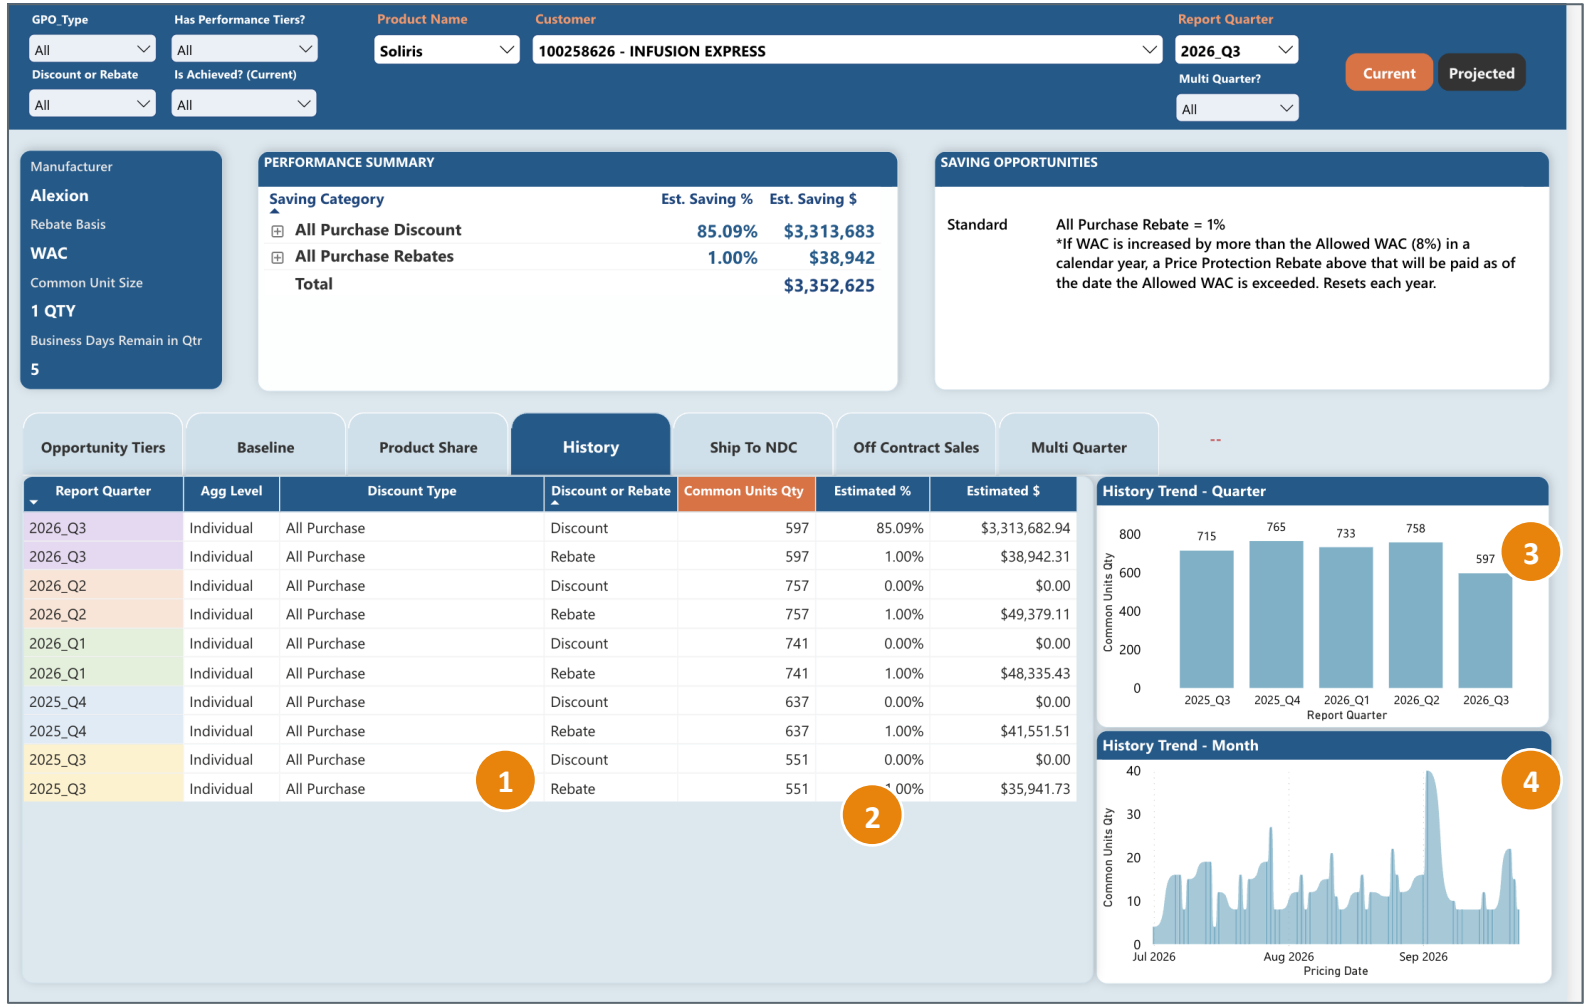

4 Proj columns
The same measures, projected to quarter end

5 Competitor Units Breakdown
Each competitor product: here Soliris, 3,894,231 units

Tip: The grid can be blank when the product has no share-based tier. This Ultomiris example has an All Purchase rebate of 2%.

McKesson Proprietary and Confidential

Product Detail – 'History' Tab

1 **History table**
Report quarter and the four before it: units by discount type

2 **Estimated % and $**
Saving rate and dollars for each quarter

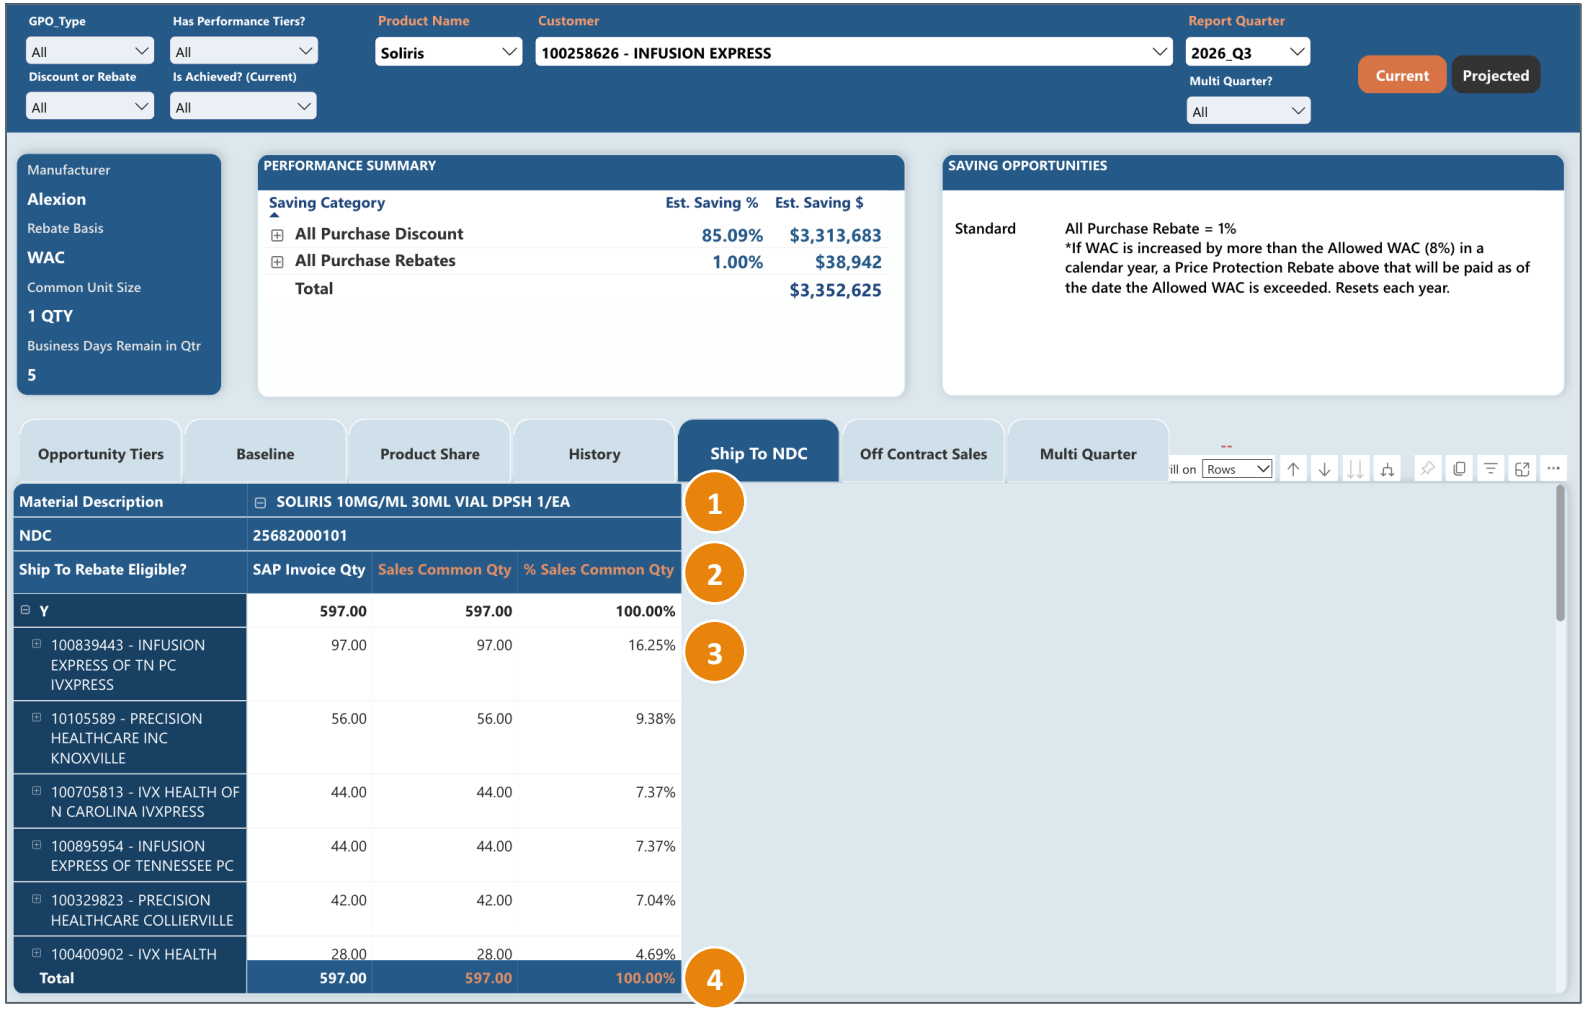

3 **Trend – Quarter**
Common units per quarter, to spot growth or dips

4 **Trend – Month**
Purchase pattern within the quarter by pricing date

Tip: A quarter well above its usual run rate may overstate Projected savings.

McKesson Proprietary and Confidential

Product Detail – 'Ship To NDC' Tab

1 Material and NDC
Product description and NDC; expand to see ship-to detail

2 Ship To Rebate Eligible?
Y groups the sites whose units count toward rebates

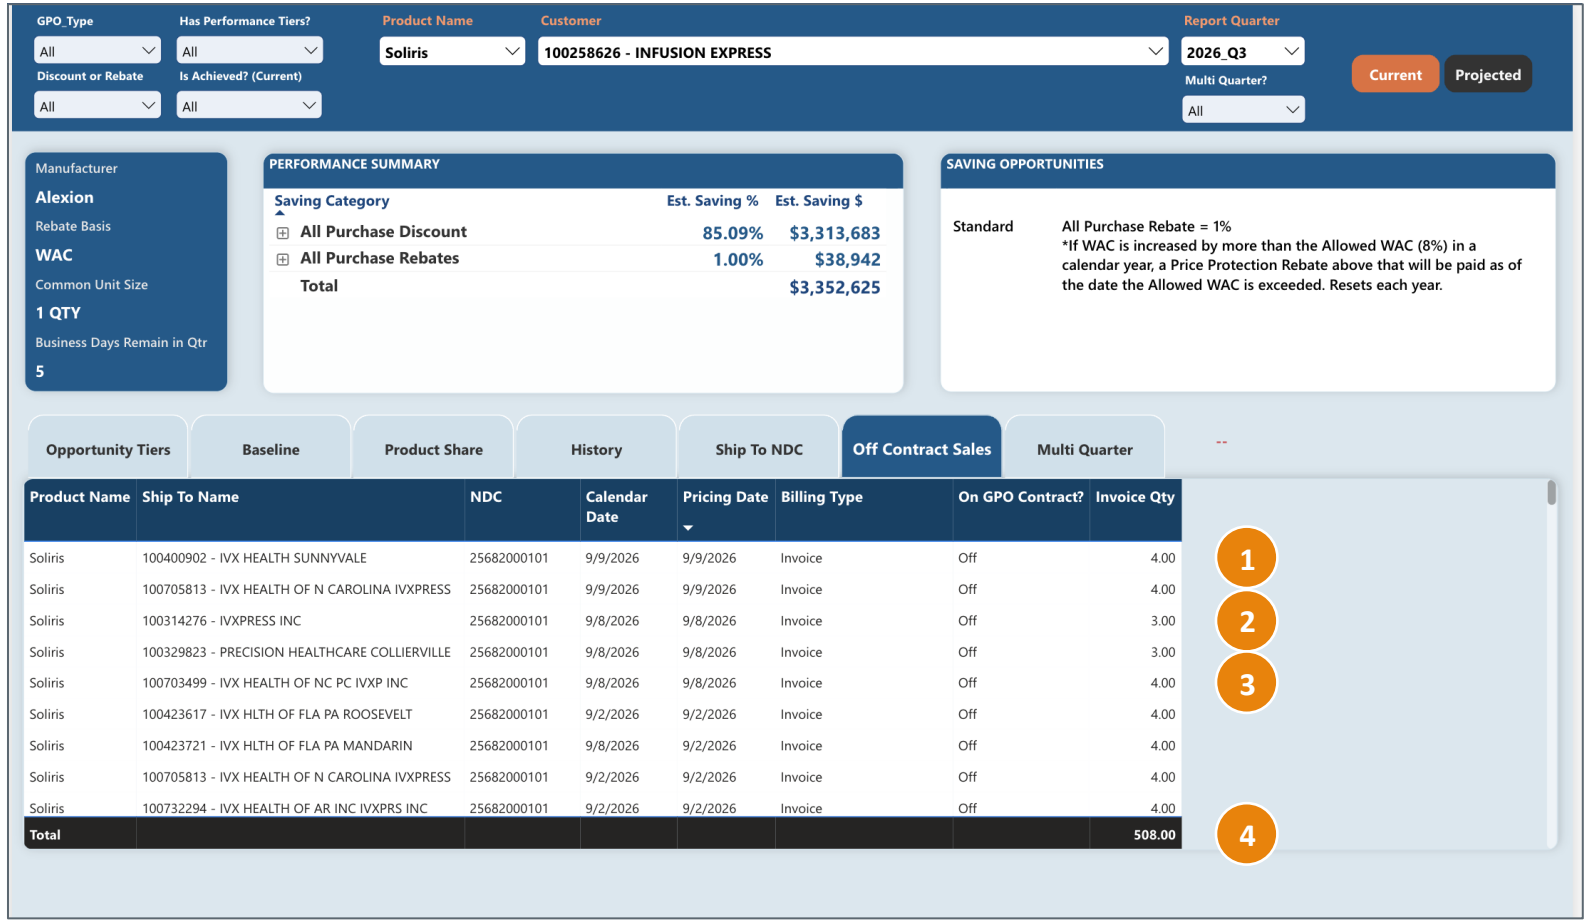

3 Ship-to rows
SAP Invoice Qty, Sales Common Qty and % of total per site

4 Total
Ties to the quarter's units on History (597 here)

Tip: Use this tab to see which sites drive volume and to confirm each ship-to is rebate-eligible.

McKesson Proprietary and Confidential

Product Detail – 'Off Contract Sales' Tab

1 Ship To and NDC
Site and product invoiced outside the GPO contract

2 Dates and Billing Type
Calendar Date, Pricing Date and Billing Type (e.g. Invoice)

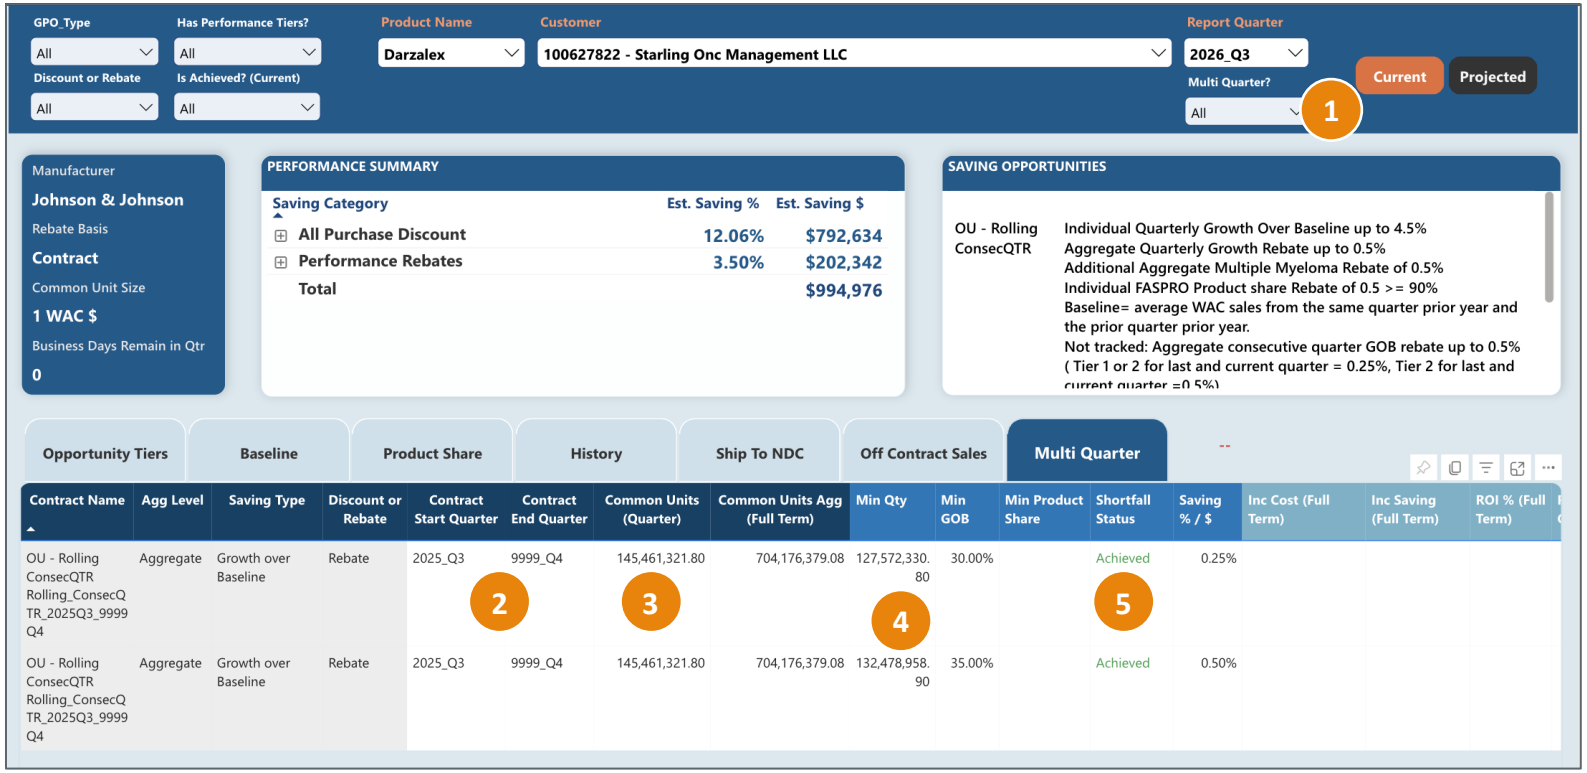

3 On GPO Contract?
Off means the sale is not on the GPO contract

4 Invoice Qty
Units per invoice line; total at the bottom (508 here)

Tip: Off-contract units are not earning GPO contract savings. Review these sites with your Account Manager; some may be candidates for roster management.

McKesson Proprietary and Confidential

Product Detail – 'Multi Quarter' Tab

Tip: Example: Darzalex 'OU – Rolling ConsecQTR'. Both aggregate growth-over-baseline rebate tiers (0.25% and 0.50%) are Achieved.

1. **Contract Term filter**
   Choose All, Single Quarter or Multi-Quarter contracts

2. **Start and End Quarter**
   Contract term; an end of 9999_Q4 means no fixed end date

3. **Quarter vs Full Term**
   Common Units (Quarter) versus Common Units Agg (Full Term)

4. **Min Qty and Min GOB**
   Thresholds for the term, e.g. 30% growth over baseline

5. **Status, Saving, ROI**
   Shortfall Status and Saving %, then full-term Inc Cost, Inc Saving, ROI % (scroll right)

5

Tip: Show Next Tier = Yes shows the next achievable tiers, based on your Days of Purchase and ROI % inputs.

1 **Filters**
Report Quarter, Product, Customer, Include zero-purchase products, Show Next Tier, Agg Level, Delivery Type, Current / Projected

2 **Range slicers**
Limit by Days of Purchase and ROI % (Projected). Clear all slicers resets them.

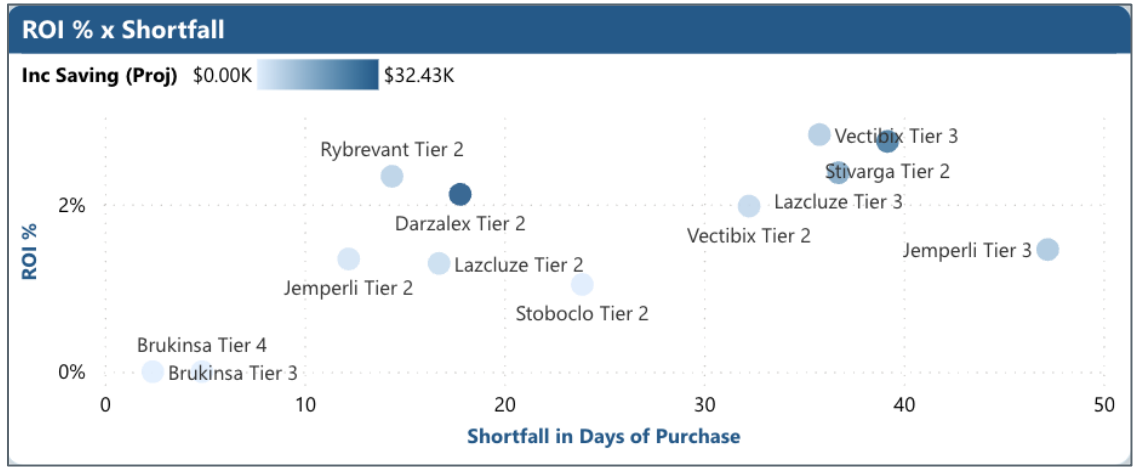

3 **ROI % x Shortfall**
Each bubble is a tier: ROI % against days of purchase needed to reach it

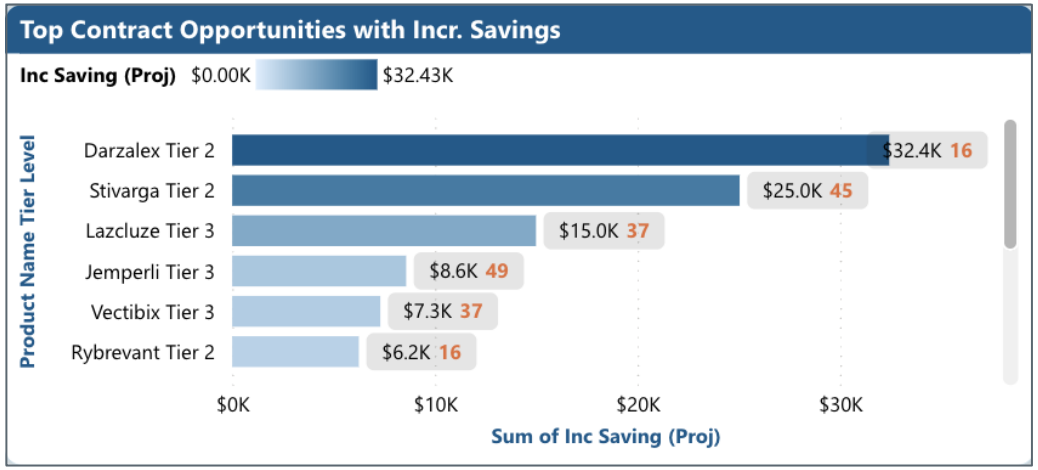

4 **Top Contract Opportunities**
Tiers ranked by projected incremental saving

5 **Tier table**
Shortfall, Days of Purchase, Saving, Incremental Cost and Saving, ROI %

McKesson Proprietary and Confidential

Top Opportunities – Prioritizing Tiers

1 Narrow

Cap Days of Purchase at the business days left in the quarter so only tiers still within reach remain.

2 Scan

Look up and to the left on the scatter: high ROI with a small shortfall. Darker bubbles carry more incremental saving.

3 Confirm

Check incremental cost against saving in the table, then open the product in Product Detail to validate History and Ship To NDC.

Inside

Common Units, Agg Level

Baseline and GOB

Shortfall, Days of Purchase

Incremental Cost, Saving, ROI %

McKesson Proprietary and Confidential

Key Terms

Term	Meaning
Common Units	Quantities converted to one standard unit per product so volumes can be compared
Common Unit Size	The standard unit for a product, e.g. 400 MG, 1 QTY or 1 WAC $
Agg Level	Individual measures this account alone; Aggregate or Combo pools volume
All Purchase	Savings applied to every purchase; no target required
Performance	Savings earned by reaching a tier (volume, growth over baseline or share)
Discount / Rebate	A discount lowers the price; a rebate is paid back after purchase
Rebate Basis	Price the rebate is calculated on: WAC or Contract
WAC / NDC / Ship To	Wholesale Acquisition Cost; National Drug Code; delivery location

Term	Meaning
Baseline	Reference volume that growth is measured against
GOB	Growth over Baseline: % this quarter's units exceed the baseline
Shortfall	Units still needed to reach a tier
Unit Per Day	Daily purchase pace: Common Qty ÷ business days quarter to date
Days of Purchase	Days of buying needed to close the shortfall: Shortfall ÷ Unit Per Day
Incremental Cost / Saving	Extra spend (Contract Unit Cost × Shortfall) and the extra saving a tier unlocks
ROI %	Incremental Saving ÷ Incremental Cost

Slicer Reference

Slicer	Values	What it does
GPO Type	MSPL, Oncology, All	Filters the view to show products by MSPL or Oncology or Both.
Contract Term	All, Single Quarter, Multi-Quarter	Limits the view to single-quarter or multi-quarter contracts
Include zero-purchase products	Yes, No	Yes includes products with 0 units; No hides them. There is no All option
Rebate Structure	All Purchases Only, Performance-Based	Separates contracts with only all-purchase savings from those with performance tiers
Tier Achievement Status	All, Achieved, Not Achieved	Shows tiers already reached, or tiers still open

Key Formulas

Unit Per Day

Common Qty ÷ Business Days Quarter to Date

Your daily purchase pace so far this quarter.

Days of Purchase

Shortfall ÷ Unit Per Day

Days of buying needed to close the gap. Example: Actemra 50-unit tier = 46 days.

Incremental Cost

Contract Unit Cost × Shortfall

Extra spend needed to reach the tier. Example: Actemra 50-unit tier = $99,747.

Incremental Saving

Extra saving unlocked by the tier

The additional saving earned once the tier is reached. Example: Actemra 50-unit tier = $3,984.

ROI %

Incremental Saving ÷ Incremental Cost

Return on the extra spend. Example: $3,984 ÷ $99,747 = 3.99%.
